VERSE

I remember
How it feels when Your Spirit sets me free
Closer now than the very air I breathe
I know I belong to You

I remember
How it feels when You speak into my heart
When You whisper that we'll never be apart
I know I belong to You

CHORUS

I won't forget how You called me by name
I won't forget how You've covered my shame
When I am lost You find me again
I remember, I remember You

I won't forget how You set me apart
I won't forget how You've captured my heart
Every moment I live I give to You
I remember, I remember You

BRIDGE

Even when the struggles come I will remember
Your word will never change
Nothing can take away Your hand on my heart
I will remember You
