## VERSE

In fear, I try to hide  
But with You, I walk into light  
In doubt, I try to fight  
But with You, my faith will arise

## PRE-CHORUS

One word from You is all I need  
In You, I live and breathe

## CHORUS

Speak into my heart  
Tear down every wall  
Set Your fire within me  
You are my all  
Speak into my heart  
I hear You when You call  
I will follow  
(Cause) You are my all

## BRIDGE

Not in the mountains  
Not in the fire or wind  
You're in the quiet with me  
Your still small voice  
Your still small voice
